Weekend Trips 2023

We will choose the trip based on the weather, spring is tricky. Below are the dates for the trips and the possible locations

January 12th-15th (MLK Day)
February 16th-19th (Presidents Day Weekend)
April 8th-9th

Ibex, UT (Bouldering/Sport)

SPORT/BOULDERING

Getting there:

Ibex is literally in the middle of nowhere, but damn it's cool. Pretty much head south till you get near Nephi, then head west. It's about 2.5-3 hrs away, but totally worth the drive. Once you hit the dirt road, you should be able to see massive stone towers to your right, drive across the salt flats and park anywhere that looks good.

This pin takes you straight to the towers and Red Monster Boulder:

Weather can be variable, bring lots of layers

Camping:

- Camping is free and pretty much anywhere, its exposed and can be windy so come prepared

Water:

- Bring water, seriously, there's nothing there

Food:

- No food anywhere in sight, please bring food
- Same for gas, get gas in Delta (on the way)

Service:

- No service, get your fix before you come, and download mnt project for Utah if you'd like

Saint George, UT (Bouldering/Sport)

SPORT/BOULDERING

Getting there:

As of now, it is hard to choose which exact saint george crag to go to, since it depends on weather.

Moe's valley is the best **bouldering** there:

- We will choose and communicate the best spot based on weather (if its cold it'll be near VRG, hot near Utah Hills)

Water:

- We are always close to town, so bring enough for the day/ weekend if you don't wanna fill up

Food:

- Lots of options in Saint George and Hurricane

Service:

- No service in at the Wailing Wall or VRG
- Service in Moe's, Chuckwalla, and Hurricave

City of Rocks, Idaho

SPORT/BOULDERING

Getting there:

This crag is very dependent on weather, which is hard to predict. But sometimes even if it is snowing/raining around the area it can be dry.
